

**Regional Operational Program for Kujawsko-Pomorskie Voivodeship
for the years 2007-2013**

Action 5.3. Supporting companies in their adaptation to the environmental protection requirements

The action is aimed at:

increasing the investment capacity of small and medium sized companies through adapting the existing companies to the environmental standards.

The kinds of co-financed projects:

- implementing new organizational and technological solutions in order to reduce the influence on the environment and to improve the efficiency,
- implementing the effective environmental management systems,
- implementing the anti-pollution technologies.

The value of the grant:

The maximum co-financing for a single project is up to 50% of the qualified costs.

The minimum contribution from the beneficiary is also 50% of the qualified costs.
