

Regional Operational Program for the Opolskie Voivodeship for the years 2007-2013

Action 1.3. Innovation, research and technological development

Action 1.3.2. Investments in innovative companies

The action is aimed at:

improving the competitiveness among companies in the Opolskie Voivodeship by supporting the investments leading to increase in their innovativeness.

The kinds of co-financed projects:

- projects concerning the realization of new and innovative investments,
- investments connected with the implementation of innovative solutions and purchase of fixed assets indispensable to lead the R&D works in companies.
- projects connected with the implementation of the ICT systems including the computerization of the production process or the servicing system within the company.

The costs qualified to co-financing:

- cost of purchase of the areas strictly connected with the project realization (up to 10% of the qualified costs),
- cost of the purchase or creation of fixed assets strictly connected to the project realization (for instance buildings together with installations and their equipment),
- cost of the purchase of special transport means under the condition that the company does not belong to the transport branch and will guarantee that the purchased transport means will be used only for the purposes of the project realization,
- cost of the purchase of the intangible assets such like patents, licenses, know-how and the implementation of the quality management system.

Value of the grant:

The maximum value of the qualified costs for purchases of fixed assets necessary to realize R&D works in companies is 50 000 Euro.

The maximum and minimum value of the grant is:

- from 550 000 up to 7 500 000 PLN - for innovative investments in micro-companies,
- from 200 000 up to 7 500 000 PLN - for innovative investments in other companies.
